Strike Up the Band

The Past Presidents used to wear "orange" blazers as their identifying mark. When they appeared in public as a group, people would ask, "Who are you?" They would reply the "IAABO Band." They did draw a lot of attention. They had no instruments; just a lot of experience in IAABO. In 1994, the color was changed to maroon, with less attention drawn, but no decrease in dedication to the organization. How many can you identify? What years were they president? Three are still living.
